I graduated the University of Geological Sciences. During my studies, I worked in several companies, where I gained practical experience and developed strong teamwork skills. My main goal is to become a qualified specialist in my field and continue improving my professional knowledge and skills. . I have basic knowledge of Geological software that QGIS, IPI2Win, Seequent database (MX deposit) ,Surfer 10.8, Radexp, Zond geophysical softwares.I have teamwork and time management skills.

Work History

2022-12 -
2024-02

Education Counselor

Just Grant Program , IDU, Toshkent
Providing information to students about studying in Japan. helped them obtain a student visa

2024-03 -
2024-06

Manager

Ecoplatinum, Kirby, Toshkent
Signed contracts with clients and contributed to the company's development.

2025-04 -
2025-05

Geophysical Practice

"O'zbekgidrogeologiya" DM, Toshkent
Groundwater was searched for at the Muruntov gold mine using the VEZ geophysical method.The Medusa B2 receiver and Skat II generator instruments were used

2025-06
2025-09

Copper mining In2Metals

Geological exploration in NorthBukantou . Soil sampling completed.Geological work is conducted in the JORC system (for 3 months) Software: QGIS, Seequent (MX deposit)

2025-11-

APTech group mchj

As Geologist. Diamond drilling carried out in Berkuttau -Independent maintenance of primary geological documentation for trenches and boreholes

Skills

- MX deposit
- DDrilling Documentation
- Geophysics methods
- Geological exploration
- ArcGIS basic
- QGIS
- JORC system
- Corel draw basic
- IPI2Win , Surfer 10.8
- Zond geophysical software
- Radexpro basic
- Operations management
- Strategic planning
- Project management
- Documentation and reporting
- Teamwork and collaboration

- Detailed description of core, lithology, and structural features of rocks
- Creation and verification of baseline data for boreholes and mine workings
- Construction and adjustment of geological sections
- Monitoring the completeness and accuracy of field documentation
- Entering and managing information in databases

Education

2025-05	Bachelor: Geophysics <i>Geologiya Fanlari Universiteti - Toshkent</i> • Awarded Complete Grant • Member of Compass club • Solving geological problems using the Python programming language • Practice
2023-05	Foundation Java : Java Programming Language <i>ISystem Academy - Toshkent</i> • Elected Captain of Team
